Press Quotes & Testimonials:

"The (Yeats Project's) music is a mixture of Sarah's originals and arrangements... It was the arranging which struck me when I first heard the music back in 2012; the poems lend themselves to beautiful, lush treatments, and Sarah uses the ensemble's nine instruments to great effect. The result is contemporary sounding but still tuneful, an interesting mix of chamber music and improvisation; Sarah's impressive vocals soar over top."

- Josh Grossman- Artistic Director, Toronto Downtown Jazz

"Since the wedding, we have continued to receive very positive feedback about the ceremony, and particularly your singing! A number of friends have said they were very impressed. One friend said she was "blown away" with how beautiful your voice is. Another friend said they did not want to sing during the service because they only wanted to hear your singing. Thank you for making our ceremony such a beautiful event."
